

# Week 2 IT4 Board Game 6

## Describing the 'what'

### **Aim:**

This game reinforces describing the object , introduced to the children as the 'what', using adjectives.

### **How to play:**

- A board is placed between the children. Next to it a pile of cards.
- Children alternate turns.
- In each turn they pick up a card from the pile, read it and guess which animal matches with the description. They point to which animal they think matches on the board and if they get it right they keep the card. If they get it wrong, they return the card to the bottom of the pile.
- The child with more cards at the end wins.
